"Hi My name is Kalaitzidis Nikolaos, and I am a freelance architect deeply motivated to create innovative designs and explore diverse architectural styles. I work with energy and passion, constantly seeking creative ways to use design to make spaces brighter and more versatile. Architecture's profound influence on my daily life fuels my love for it even more. I firmly believe that young architects can deliver high-quality designs and excel in demanding projects.

PROFESSIONAL EXPERIENCE

Architect at 'Moustroufis Architects' in Chalandri, July 2024 - present
Moustroufis Architects is recognised as one of Greece's leading architectural practises.The studio strives for high quality architectural design and building construction, based on simplicity, harmony of volumes and materiality in addition to excellent functionality.

Designer and Project Manager at a Tiny House Company, Kefalonia (Ongoing)
Leading the design and management of a project focused on constructing prototype tiny houses, with the aim of expanding production. The project emphasizes passive home design prioritizing efficiency, affordability, and ecological sustainability. The broader vision involves creating a small-village complex to promote agritourism and alternative tourism in the region.

Assistant Architect for a Four-Storey Apartment Building, Neapoli, Athens 2024
Took over an existing project originally designed and partially constructed by another engineer, managing its completion with a focus on achieving architectural aesthetics.

Renovation of a Small Apartment with Fireplace Installation, Neo Heraklion, 2024
Designed and oversaw the renovation of a small apartment, including the integration of a new fireplace synthesis.

Renovation of a Two-Storey House (120 sq.m) in Chania, June 2020
Supervised on-site construction and completed comprehensive designs, including 3D modeling, for the renovation of an old two-storey house.
